DISCUS 2CT, order no. 4217 with visualised building instruction

The model - DISCUS 2CT - made of Solidpor will be supplied with GRAUPNER-VIT in future. VIT signifies Visual Instruction Tool. The visualised building instruction offers the modeller the possibility to follow the construction of the model, step by step by means of short video clips.

A VIT login ticket is included in the construction kit, on this ticket the modeller finds all necessary data, such as the exact web address as well as the user name and password.

The Visual Instruction Tool describes in detail the 3 versions, how to assemble the basic model, order no. 4217. For more information regarding optional accessory such as aero-tow mechanism and electric power, please click on www.graupner.de.

In case of any question concerning GRAUPNER-VIT you are welcome to send an e-mail to info@graupner.de
